

Mobile Vertical Spraybooms

M1- M2 - M3 - M4 - V1

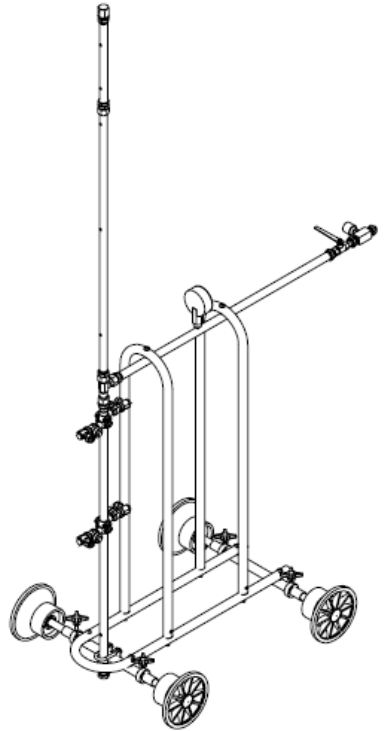

Wanjet mobile vertical spraybooms are made to ensure optimal spraying of crops where vertical spraying is required.

The frame and pipes are made of stainless steel. The nozzles can be individually adjusted in three different positions. Each nozzle is possible to close separately. The nozzles are made of chemical-resistant plastic with a ceramic insert to guarantee a long lifetime.

The system can be supplied with flange wheels for piperail systems, massive rubber wheels, or pneumatic wheels. For the flange wheels, the width between the wheels can easily be adjusted to fit different widths of piperail systems. All the different units below are equipped with a pressure gauge, ball valve, and pressure regulator.

- M1-x Sprayboom with flange wheels for piperail width between 38 and 63 cm.
- M2-x Sprayboom with flange wheels for piperail width up to 100 cm. (to be cut down to desired length. Total width is adjustable (25 cm).
- M3-x Sprayboom with massive rubber wheels.
- M4-x Sprayboom with pneumatic wheels.
- V1-x Sprayboom with inlet pipe but without wheeled frame

x=no of nozzles which can be 6, 8, 10, 12, 14, 16, 18

Technical data	M1	M2	M3	M4	V1
Length x width*, cm	117x49	117x86	117x49	117x53	117x8

<u>Nozzles</u>	<u>Height. cm/weight. kg:</u>				
6	109/14,8	109/19,1	110/15,1	113/16,8	104/4,5
8	135/15,8	135/20,1	136/16,1	139/17,8	130/5,5
10	170/16,7	170/21,0	171/17,0	174/18,7	165/6,4
12	205/17,6	205/21,9	206/17,9	209/19,6	200/7,2
14	250/18,7	250/23,0	251/19,0	254/20,7	245/8,3
16	285/19,5	285/23,8	286/19,8	289/21,5	280/9,1
18	320/20,4	320/24,7	321/20,7	324/22,4	315/9,9

Max working pressure: 20 bar

*min width indicated. wheels included

Ordering information:

Please state:

Model type / No of nozzle

The sprayboom will then be equipped with standard flat spray nozzle type 8002VK

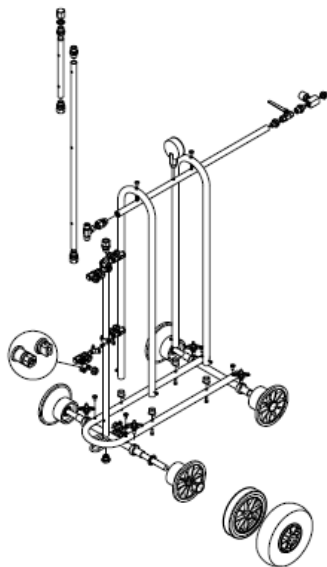

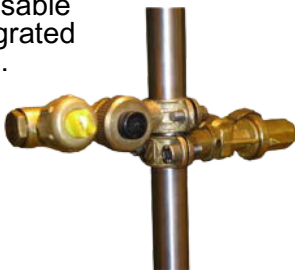

If you order:

Model type / No of nozzles/TX

Standard nozzles will be replaced by conical nozzles, type 8002TX

All models are delivered in a carton box measuring 118x24,5x20 cm with assembling instructions.

View of the adjustable nozzle with integrated shut-off function.
